

An Important Announcement from TrueScale Miniatures

- FOR IMMEDIATE RELEASE –

(October 28th 2011) Due to circumstances beyond our control, we regrettably announce that one of our factories has suddenly declared bankruptcy. We do apologize for this unforeseen circumstance and the delays that this closure will undoubtedly cause, but please know that TrueScale staff is working hard to minimize the impact this will have on our loyal customers and dedicated fans.

Our staff has already mobilized in China and has secured our various toolings and other properties from this factory at this time. TrueScale Miniatures does utilize a number of factories for its various product ranges and fortunately this situation only affects one particular factory. While there will be some temporary delays in the release of certain products, we do not anticipate that this will affect our overall production schedule in the long term.

We are currently working to transport our toolings to our other capable factories with the goal of continuing development and resuming production as quickly as possible. However, it will take some time for each factory to familiarize themselves with the toolings and this will cause some delay. TrueScale maintains a high level of quality and detail that collectors have to come to expect and it is important that each product is developed to our exceptional standards, even if it may take additional time.

The following are products that are most impacted by recent events and will be delayed:

TSM111801	1/18 1977 Porsche 936/77 Martini #04
TSM111802	1/18 1977 Porsche 936/77 Martini #03
TSM11AC03	1/18 Cosworth DVF F1 Engine Model
TSM114331	1/43 1967 Chevrolet Impala 4 Door Sport Sedan Black Pit Crew & Mechanics Figurines Snap-on Series Products

During this time your kind patience is greatly appreciated and we thank you for your generous support now and over the years. TrueScale Miniatures will continue to develop and produce the fine products you were promised and deserve.

Sincerely,

Wesley Miller
Sales Manager
