Newcomers to Collector's World in 2002.

Precision at the highest level – that's BMW. Whether it's full size vehicles or models in miniature, BMW understands how to win the hearts of its fans. BMW lifestyle miniatures are lovingly created models to give and collect. The closeness to the vehicle and love of detail are what bring these models to life. They make you want to start the engine, feel the dynamism and enjoy the trip – just like a full size BMW.
