#### Dear Collector,

Welcome to the very first 2007 selection of precision die-cast models from Corgi direct. Within the pages of your catalogue you will find over a hundred models, of which more than half are brand new releases, now offered direct to collectors for the first time. More than 75% of the models featured are also issued as Limited Editions, notably some issued in unusually limited numbers (see page 3 and also under Road Transport Rigids). These are very likely to sell out almost at once, so your early reservation is absolutely essential.

As you page through the catalogue, look out for some special offers which are exclusive to collectors from Corgi direct. These include free postage and packing on all Road Transport models (giving you a saving of £4.95); a half-price offer on the 1:76 scale Trackside range; buy three Days Gone models and choose a fourth one free; and save £2 when you buy two or more Forward March white metal figures.

One of the most encouraging aspects of the die-cast fraternity is how many more younger collectors are taking a keen interest in this form of collectable. We aim to reflect this interest with a number of ranges specifically targeted at the younger collector, such as the Warbirds, Superhaulers and Days Gone series.

I hope I've included one or more models you will want to add to your own collection.

Though Norfolk Lijn N.V. was founded in 1964, it had its roots back in the 1950s, when a young independent Dutch exporter of agricultural and horticultural products started a regular service between the Dutch port of Vlaardingen and Colchester. In 1958, due to draught restrictions, the route was altered to become Scheveningen – Great Yarmouth (hence the inspiration for the company name!). # Collectables | Aviation Archive

Here four new releases join the Aviation Archive selection of authentic military and civil aircraft. All the models featured are designed and engineered to exact 1:72 scale, and the accuracy of the paint colours, camouflage and badging have been verified by reference either to surviving aircraft or archive material. Four of the models reproduce aircraft that served in World War Two, and the rather splendid Westland Sea King dates from the 1997 NATO 'Tiger Meet'.

## J-8A Gladiator with Skis & Diorama - 284/F Royal Swedish Air Force, Finland 1940

Modified by the replacement of the conventional undercarriage by skis, this Gloster Gladiator took part in the first air combat success against the Soviets on the 12th January 1940. The squadron of the Royal Swedish Air Force had been deployed as a volunteer unit in support of the Finns against the Soviet offensive. The silver paint overspray served as disruptive camouflage, and the aircraft was badged with Finnish markings.

**Approx. length 160mm**

## The ultimate in luxury coach travel

The revolutionary concept of the 'Grand Tourer' was introduced by Wallace Arnold in 2001. It cost a bit more than the standard fare, but look what the passenger got for it: extra legroom, leather seats, a separate rear lounge, GPS to allow the passenger to track the journey on a monitor, and a multi-track sound system with headphones. Fifteen new Van Hool Volvos were delivered to the merged WA Shearings fleet for the 2006 season, conforming to the 'Grand Tourer' concept but without the lounge.

Forward March offers a range of spin cast fine white metal 1:32 scale figures, grouped into specific themes from our history. These range from Great Leaders to Civilians at War, from the Battle of Trafalgar to Operation Desert Storm. Collect all 12 figures in any one theme, and you will also receive a FREE replica Campaign Medal. And when you buy any two Forward March models from this selection, we will give you £2 off the price of your combined purchase.

**Captain Thomas Hardy 1805 - Battle of Trafalgar**  
Captain Thomas Hardy is best remembered for having served in HMS Victory as Nelson's flag captain at Trafalgar, which is as he is depicted in this handsome spin-cast, white metal figure executed to 1:32 scale. What is less well known is that he subsequently went on to higher things, culminating in his appointment as First Sea Lord in 1830, 25 years after Trafalgar.  
**Ref: CC59186 £9.99**  
**Scale 1:32**  
**Approx. height 63mm**

**French Infantryman at Pozieres - Battle of the Somme**  
Though we rightly commemorate the ghastly casualties of the British Army in the horror commencing on the 1st July 1916 (some 420,000), we tend to overlook the 200,000 casualties suffered by the French in that same battle. This spin-cast, white metal, hand-painted tribute to the French infantrymen of the Somme remembers them.  
**Ref: CC59176 £9.99**  
**Scale 1:32**  
**Approx. height 54mm**

**Winston Churchill 1945 - Great Leaders**  
Prime Minister through the crucial war years of 1940 to 1945, was he the greatest Prime Minister of the 20th Century? A recent poll suggested he came only 4th, but as one correspondent to the Daily Telegraph pointed out, without him, there probably wouldn't have been the ten who came after!  
**Ref: CC59161 £9.99**  
**Scale 1:32**  
**Approx. height 54mm**

**British Infantryman of the Staffs. Regiment - Desert Storm**  
Think of Operation Desert Storm, and it's always images of lethal combat aircraft and armoured columns that come to mind. But the backbone of any land-fought war is the infantry, and we remember them here in the form of this 1:32 scale hand-painted figure.  
**Ref: CC59198 £9.99**  
**Scale 1:32**  
**Approx. height 54mm**

**German Ski Trooper 1943 - Special Forces**  
Of the elite special forces of the Wehrmacht in World War II, there were few more elite than the ski troopers. Drawn from parts of Europe in which skiing was second nature almost as early as cutting their teeth, the troopers of these units were a fast and highly effective weapon in winter infantry warfare. This 1:32 scale hand-painted figure salutes them.  
**Ref: CC59163 £9.99**  
**Scale 1:32**  
**Approx. height 46mm, length 83mm**

**British Corporal with Bren Gun - Battle of El Alamein**  
The 0.303 inch Bren light machine gun was a focal weapon in the armoury of the British infantry. This white metal, hand-painted figure epitomises a key defensive and offensive resource in the 1942 battle which turned the tide of the war in the North African desert.

**Capt. Charles Upham VC 1942 - Famous Heroes**  
One of only three men ever to win the Victoria Cross and Bar (the equivalent of a second VC), New Zealander Charles Upham (1908 – 1994) won his first VC in Crete in May 1941, and his second for actions in June 1942 at Mingar Qaim in North Africa. After the war he returned to 'Landsdown', his farm in New Zealand, which he ran until almost the end of his life.  
**Ref: CC59172 £9.99**  
**Scale 1:32**  
**Approx. height 45mm**

**National Fire Service Firefighter 1940 - Civilians at War**  
Between September 1940 and May 1941 the Luftwaffe mounted no fewer than 127 raids on British cities, 71 of which were on London. Day and night the fire service fought the fires and dug victims from the wreckage of their homes. Visit the sculptor John Mills's most moving monument to the heroes of the fire service, situated immediately to the south of St Paul's Cathedral.

# Collectables | Winter Dioramas

Since Corgi first introduced lifelike dioramas (models presented in similarly scale sets), these have proved most attractive to real connoisseurs of precision die-cast. Each diorama is based on real life photography, which is translated by our model-makers into the three-dimensional, which is then cold cast, and hand-painted to the original visual reference. The models themselves are, needless to say, genuine exact-scale Corgi originals.

## Van Hool T9 & Diorama - Maynes of Buckie 📍

This year marks the 40th Anniversary of the Calder Valley Search & Rescue Team, which consists entirely of volunteers financed 100% by charitable donations. The model and the separately cold-cast diorama scene have been modelled from an actual photograph.
