Dear Collector,
Welcome to this selection of nearly 100 models from Corgi Classics, with nearly half issued as brand new releases. I think there's something here for almost every conceivable enthusiast of die-cast replicas, from the youngest to the most mature, and at prices to suit every pocket, starting at the Days Gone range of vintage commercials at a mere £4.99.

The Forward March range of 1:32 scale white metal figures from the past 200 years of our island history has proved immensely popular, and I have added a further six to the range in this catalogue. As ever, there are some important new additions to our flagship Road Transport series of big, 1:50 scale replicas. I would single out the two-piece David Haig set of two, a big Renault Premium and a Volvo FM with skeletal trailer and container load. And there is a bumper crop of new 1:43 scale Vanguards Classics, the definitive model history of British saloon and sports cars from the 1940s right up to the present.

To start it all off in this big 32-page catalogue, it's hats off to Top Hat Racing and a trio of legendary little A35s that could give the big Jags a run for their money - and then some!

I very much hope there's something here you'll want to add to your own collection.

Austin A35 Set - Rae Davis: Top Hat Racing 🏆
Each of these three A35 Austins rejoices in an affectionate nickname: 'Powerful Peanut' (No. 4), 'Red Rocket' (No. 9) and 'Mushy Pea' (No.3). The Peanut was the first of a series of Rae Davis-built and driven A35s; the Rocket was the second generation and Mushy Pea the third built to contest Top Hat's 'Oldies but Goldies' series. 'Mushy Pea' not only dominates its class, but it can take on and beat much larger-engined Jaguars and Zodiacs.

NEW LIMITED EDITION

Motorsport is a brand new theme in which Top Hat Racing and Roger Clark take the race to you. Each 1:43 scale model accurately reproduces an original vehicle, and comes in top-folding premium packaging that includes substantial background information to the original of the model. All the models are issued as Limited Editions, and together this range builds up into a virtual history of saloon car racing in Britain.

A Day at the Races

The Top Hat Historic Racing was founded by Julius Thurgood in 1999, and proved an instant hit with both drivers and followers of motor racing. The annual season is divided into race meetings for specific classes, but all with one thing in common: they are exclusive to historic cars.

Categories include: 'Oldies but Goldies' (pre-1960 historic touring cars, with older GTs); 'Cloth Cap' (for pre-1965 historically interesting sports cars); 'Best of British' (pre-1970 classic British sports cars: to club regs.); and 'Groovy Baby' (for 1970s saloons). Meetings are rotated around the tracks, including Goodwood, Donington Park and Mallory Park.

What's in a name: Charles H. Roe

The Yorkshire coachbuilding company Charles H. Roe was founded in 1923, and based at Crossgates Carriage Works in Leeds. Owned by Park Royal Vehicles (PRV), Roe then became part of Associated Commercial Vehicles (ACV) in 1949. ACV was bought out by Leyland in 1962, who continued in production until 1984, when the plant was closed down.

However, a consortium effected a buyout of the company and its assets, and in 1985 created a new coachbuilding company. The name of the new company? None other than Optare.

The Forward March range of 1:32 scale hand-painted white metal figures features individuals and representative figures from the past 200 years of our history. They are grouped by specific theme, from the Battle of Trafalgar to the Battle of El Alamein, from Civilians at War to Special Forces. There are also incentives to collect the whole set of figures in each theme; details of these will be found inside each pack.

🔴 Royal Marine Commando 1982 - Special Forces

Inspired by the revolutionary guerrilla 'commando' tactics adopted by the Boers in the 1899-1902 South African War, ours were formed in June 1940. They subsequently fought in every theatre or war, notably in the Falklands conflict of 1982, where their high mobility gave us a marked advantage over sometimes almost impassable terrain.

🔴 General Rommel 1942 - Battle of El Alamein

One of the great strategic and tactical masters of tank warfare, General (later Field-Marshal) Erwin Rommel and his Afrika Korps dominated the war in North Africa for much of 1941 and 1942. After the loss of North Africa by the Germans, Rommel was appointed to command the defence of France against possible Allied invasion.

🔴 General Eisenhower 1944 - Great Leaders

Dwight David Eisenhower (1890-1969) was appointed Supreme Allied Commander of the Allied Expeditionary Force in Western Europe from December 1943. From London he oversaw the invasion of France and then Germany from June 1944 onwards. In 1952 and 1956 he was elected 34th President of the United States.

🔴 Col T.E. Lawrence 1918 - Heroes

Better known as 'Lawrence of Arabia', Thomas Edward Lawrence (1888 - 1935) came to know the desert dwellers as a junior archaeologist. On the outbreak of World War One he served in military intelligence in North Africa, before joining the Arab revolt against the Turks, playing a crucial role.

Trafalgar: a great day in our history

On the 20th October, Admiral Villeneuve brought his fleet of 34 French and Spanish ships of the line out of Cadiz. The next day Nelson, with his fleet of 27, closed with the enemy off Cape Trafalgar, executing a manoeuvre which brilliantly cut off 10 of the enemy ships, which took no further part in the action. 18 of the French fleet were accounted for, with a loss in killed and wounded of 5,860. By contrast, the British casualties were just 1,690 - but of course that number included Nelson, picked off in the hour of his triumph by a sniper from the mizzen mast of the French ship Redoubtable.

Admiral Lord Nelson 1805 - Great Leaders

Horatio, Viscount Nelson (1758 - 1805) was a lifelong naval man, entering the service at the age of 12. His astonishing strategic and tactical instincts led to a succession of naval warfare's unequalled triumphs. Mortally wounded at Trafalgar, Nelson remains the undisputed hero of heroes in naval history.

Gurkha Rifleman 1915 - Special Forces

Recruited from 1815 from among the ruling Hindu caste of Nepal, the Gurkhas became something of a fearsome legend in both World Wars and in subsequent conflicts. This 1:32 scale figure features an infantryman from World War I, complete with his trademark kukri, the huge curved knife carried by every Gurkha..

🔴 British Milan Anti-tank Team 1991 - Operation Desert Storm

Operation Desert Storm was the code name for what is also known as the First Gulf War, the campaign to oust Iraq from Kuwait, invaded by Saddam Hussein in August 1990. One of the strongest elements of the Iraqi Army was thought to be its tank divisions, so anti-tank units such as this were crucial to the Allied victory.

🔴 Canadian Paratrooper 1944 - Special Forces

Originally The Parachute Regiment was an elite force of Commandos established by the British Army, and was subsequently adopted by military commanders almost universally. Significant actions involving Canadian forces were the (disastrous) Dieppe Raid of August 1942 and, of course, D-Day.

A pioneer's vision of Europe?

When he returned from war service to his home town of Bellshill, David Wilkie Haig invested in a second-hand Thornycroft lorry. That was in 1946. When he retired in 1985, after 39 years of service, not least as a founder member of the Road Haulage Association, he had pioneered some important ways forward.

The most significant of these, was the company's Italian road service. Today, it is hard to remember that in 1969, things were different, with bureaucracy at every frontier. Yet David Haig persevered, and blazed a trail for which we all perhaps owe him a debt today.

The Warbirds series celebrates iconic military aircraft from World War II. Fighter aircraft are reproduced to 1:72 scale, and the larger bombers to 1:144 scale. ✈ Curtiss P40 Kittyhawk IA - Les Jackson

Some said it was obsolete. But the P-40 remained in service right to the end of World War II. Obsolete? One of the great Australian fighter pilots of the war, Flight Lieutenant Leslie Douglas Jackson DFC and his Kittyhawk played a key role in repelling the threat of a Japanese invasion..

Ref: WB99610 £9.99
Scale 1:72 Wingspan 155mm

✈ Supermarine Spitfire MkIA - Flt Sgt George Unwin

Pilots loved it with a passion. The Spitfire in the Warbirds collection is fittingly that flown by Flight Sergeant George 'Grumpy' Unwin over Dunkirk in those bleak days of 1940, in which he made 3½ 'kills'.

Ref: WB99601 £9.99
Scale 1:72 Wingspan 156mm

✈ Hawker Hurricane MkI - Flt Lt 'Pete' Brothers

Contrary to myth, the 'Hurri' was the main reason for RAF victory in the Battle of Britain. In the interests of speed, 'Pete' Brothers made a number of modifications to P2921, even having the external rivets filed down to reduce the drag on the aircraft.

✈ Messerschmitt Me262A-1a - Oberstleutnant Heinz Bär

The world's first operational jet aircraft, the Me262 came into production in May 1944. Having earlier shot down no fewer than 10 RAF aircraft, Oberstleutnant Heinz Bär survived the war after an incredible record of being shot down 18 times!

Ref: WB99613 £9.99
Scale 1:72 Wingspan 177mm

✈ Supermarine Spitfire HFIXC - Flt Lt Otto Smik

The MkIX was probably the definitive version of the Spitfire, with its Rolls-Royce Merlin 12 cylinder in-line engine. The original was piloted by Flt Lt Otto Smik, the highest scoring ace of Slovak origin in WWII, killed in action in 1944 at the age of just 22.

Ref: WB99614 £9.99
Scale 1:72 Wingspan 155mm

✈ Chance Vought Corsair F4U-1 - 2nd Lt Kenneth A. Walsh

By 1944 the Corsair had become the predominant US Navy carrier-based fighter in the Pacific. Kenneth A. Walsh scored 20 'kills' over the Solomon Islands, and was decorated personally by President Roosevelt.

✈ A6M-3 Mitsubishi Zero - N.A.P. 1st Class Hiroyoshi Nishizawa

Japan's most famous fighter aircraft, the Zero ran rings around other fighters in the early days of the war in the Pacific. Hiroyoshi Nishizawa was accorded the soubriquet of the Imperial Japanese Navy's 'Ace of Aces', with a reputed 'kill' total of over 100 enemy aircraft.
