### Dear Collector,

As we move towards the end of Corgi's 50th Anniversary year, I am delighted to be able to offer you this wide selection of precision die-cast models, which include nearly 50 which are now offered direct to collectors for the first time. Among these, naturally, are some new 50th Anniversary models, each available in an edition of exactly 2,006 pieces, each chosen for its special place in the history of Corgi.

Following the most favourable reception among die-cast collectors of offering both Corgi and the former Lledo ranges of Vanguard, Trackside and Days Gone, I am glad to say that these are all included again here.

Original Omnibus collectors will be pleased to see seven newcomers, notably the newly tooled Wright Urban Eclipse, and we preview the new James Bond film, Casino Royale, with a pair of very collectable Aston Martins and a boxed Limited Edition of both with some related extras.

Look out for the all-new Forward March selection of spun-cast white metal figures relating to momentous events in our island's military history, and don't overlook Warbirds, a new and widely acclaimed concept in the history of aviation in WWII.

I do hope you'll find something here you'll want to add to your own collection.

Limited Edition quantities correct at time of going to print and may be subject to alteration. Certain models photographed in this catalogue are hand finished prototypes. The final quality of factory-produced models will be superior. All measurements are approximate. Corgi reserve the right to improve and amend specifications on all models.

### Klingon Bird of Prey - Star Trek 40th Anniversary

Of all the fearsome adversaries faced by Captain Kirk, Mr Spock and Co., none was quite so spooky as the Bird of Prey. Our detailed die-cast model reproduces the Klingon as featured in Star Trek III, The Search for Spock, and comes with its own Klingon emblem display stand.

**Ref: CC96602 £12.99**  
Approx. length 107mm

Celebrating 40 years of Star Trek, this range of replicas is beamed down to collectors. Each model is a detailed die-cast replica, issued under licence from Paramount Pictures. Each features 360° decoration, and comes in suitably 'futuristic' display packaging that looks as if it might have been designed by Mr Spock himself!

### U.S.S. Enterprise - Star Trek 40th Anniversary

Celebrating the 40th Anniversary of Star Trek, what more suitable model to mark the occasion than the very original starship Enterprise? This brand new model with its Starfleet emblem stand belongs in the collection of every Trekkie.

# Collectables | Trackside - OUR FEATURED RANGE OF THE MONTH!

TRACKSIDE

Six brand new releases add to this 1:76 scale ('00' gauge-compatible) series of vintage commercials. Two are also the products of new tooling, namely the Scammell Mechanical Horse Stepframe Trailer and the Scammell Townsman Box Trailer. Collectors of the Royal Mail theme will be delighted with a pair of new additions to that range. And at just £3.99, the series of LDVs first released earlier this year offers an exceptionally affordable range.

## ERF LV & Sheeted Platform Trailer - BRS Western

ERF's 'LV' continued in production until 1974. It was a completely new design, featuring an improved glass fibre cab with a large one-piece windscreen, and powered by either a Gardner 150 or 180 engine.  
**Ref: DG186011 £12.99**  
**Scale 1:76 Approx. length 130mm**

**Scale 1:76 Approx. length 100mm**

## Horses for Courses

Designed by the legendary Oliver D. North, the 'Mechanical Horse' was introduced in 1934, largely in response to the need of the railway companies for a motorised vehicle to replace horse-drawn carriages. As a working vehicle, it offered a number of important advantages: its wooden cab cut down on unloaded weight, it could automatically couple and de-couple with trailers, and its single front wheel turned through 360°, making the 'Horse' exceptionally manoeuvrable. In the late 1940s the 'Horse' was redesigned to create the Scarab.

# Collectables | James Bond

Not long to go now before the release of Casino Royale, the 21st film in the 44 year old franchise, which comes to the big screen on the 17th November. Alongside Daniel Craig's debut as 007, these three new releases are bound to be a hit. The individual models reproduce the Aston Martin DB5 and DBS featuring in Casino Royal, while the boxed Limited Edition will surely become a true collector's item.

**NEW**

## Aston Martin DB5 - Casino Royale

As shortly to be seen in the 21st outing of James Bond, the DB5 remains the most enduring car in the 007 canon. This replica features the new Bahamas number plate from the film, chromed wing mirrors, opening doors, full interior and a seated Bond figure.

**Ref: CC04309 £11.99 Scale 1:36**

**Approx. length 125mm**

## Aston Martin DB5 & DBS two-piece set- Casino Royale

Best of all, why not go for this boxed Limited Edition set that includes both Aston Martin models? The set comes in a briefcase style presentation box, an exclusively commissioned Casino Royale pack of cards with silver embossed edges, made by Cartamundi®, who produced the actual cards used in the film.

# Collectables | Vanguard

Continuing the system of grouping Vanguard by marque, Ford and Jaguar are represented here with a selection of Limited Editions, including a brand new release under each marque. From Jaguar comes a truly swish 1972 Daimler Sovereign, while Ford presents the classic 'lowline' version of the Zephyr MkII. Each replica conforms to the exacting standards of the Vanguard's 8-Point Specification Plan, as shown below.

## 1972 Daimler Sovereign SWB 4.2 Auto - Heather

Our model replicates the Series 1 Sovereign, based on the Jaguar XJ6, but trimmed in a more luxurious style, and fitted with the distinctive Daimler 'crinkle' grille. Features include working suspension, photo-etched chrome detail and wipers, chromed rear view mirrors and precisely matched Heather paint colour.

**Ref: VA08803 £11.99 Scale 1:43 Approx. length 110mm**

## Jaguar XJ6 Series I - Old English White

Introduced in 1968, the XJ6 can be said to have moved the goalposts of vehicles refinement on to a different pitch – and that goes for our 1:43 scale Limited Edition. The car modelled is a Series One, shaped as Sir William Lyons intended before legislation forced the bumper height to be raised.

**Ref: VA08610 £11.99 Scale 1:43 Approx. length 110mm**

## Jaguar XJ Super V8 - Radiance Red

A remarkable car: a large, comfortable 4-door luxury saloon that, thanks to its 400 bhp supercharged V8 can out-perform many sports cars, the XJ Super V8 is yours for a mere £70,000 (or £11.99 if your budget runs to the 1:43 scale version!). Features include a detailed luxury interior and working suspension.

**Ref: VA09104 £11.99 Scale 1:43 Approx. length 115mm**

## Ford Lotus Cortina MkII - 1967 Gulf London Marathon

Our 1:43 scale replica is modelled on the MkII Lotus Cortina driven by Ford works driver Ove Andersson to win the 1967 'Gulf London', UK based 'forestry marathon' Rally. Features include a full complement of spot lights.

**Ref: VA04111 £12.99 Scale 1:43 Approx. length 102mm**

## Ford Consul - Copper Brown

The cheaper 2 litre version of the Granada, the car started life with a V4 engine and was badged as the Consul until late 1975, when the name was dropped. Features of the model include the highly individualistic Copper Brown paint colour, which is precisely matched to that of the original.

**Ref: VA05510 £11.99 Scale 1:43 Approx. length 102mm**

**Vanguard** PRECISION DIE-CAST REPLICAS™

## Ford Escort MkI - Electric Blue

The Escort replaced the Anglia in 1968, though the original of our Limited Edition was produced in 1971. From the carefully matched electric blue paintwork to the detailed chassis, this is a perfect little replica.

**Ref: VA09506**

**£11.99**

**Scale 1:43**

**Approx. length 93mm**

## Ford Zephyr MkII - Caribbean Turquoise

First produced in 1956 and made until 1962, the Zephyr went through more than one facelift. Our 1:43 scale model replicates the later 'lowline' version, identified by its chrome headlight surrounds and straight bodyline centre stripe. Other features include a detailed interior with steering wheel and dashboard, as well as working suspension.

**11**

A brand new SD1 Vitesse marks the 30th Anniversary of the Rover model, while Triumph is represented with a pair of new releases, including a new 'Hidden Treasure' in all its mud-spattered, rust-eroded splendour. All models are produced to exact 1:43 scale, and many feature working suspension. All models include detailed interiors, which encompass both steering wheel and dashboard, as well as detailed wheels, hubs and tyres.

**LIMITED EDITION**

## 🔴 Rover 3 Litre Mk II (P5) - Pine Green

Described as the 'understated car for bank managers or politicians who could either not afford, or did not want, a Rolls-Royce', the 3-litre Rover is reproduced here with opulent interior, fine detail chrome trim and jewelled headlights.

**Ref: VA06908 £11.99**  
**Scale 1:43**  
**Approx. length 108mm**

## 🔴 Rover 75 - White Gold

The elegant Rover 75 ceased production with the MG-Rover company's sad demise in 2005. This 1:43 scale replica serves as a fitting memorial, with its sleek, precision-scaled body shape and precisely matched paint colours.

## 🔴 Triumph Dolomite Sprint - Magenta

The Dolomite Sprint was the first volume production car in the world to be produced with a 16 valve 4 cylinder engine. It excelled in Group One rallying. Features include detailed interior, chrome trim and jewelled headlights.

**Ref: VA05310 £11.99** **Scale 1:43** **Approx. length 96mm**

**LIMITED EDITION**

## 🔴 Triumph 2500S - Inca Yellow

The 2500S was the last of the 'Innsbruck' range of big Triumphs, and in many ways the best. This replica reproduces the original in close detail, with accurate body shape, detailed interior, working suspension and chrome detail.

**Ref: VA08210 £11.99** **Scale 1:43** **Approx. length 110mm**

**EDITOR'S CHOICE**  
A must for Vanguard's collectors!

**NEW LIMITED EDITION**

## 🔴 Triumph Dolomite 1500HL - Hidden Treasure - Sandglow

Specially treated to produce a weathered and battered effect, the Hidden Treasures range has proved immensely popular among collectors. But don't be fooled: this Vanguard is produced to the same exacting standards as its sleeker colleagues.

**Ref: VA05311 £11.99** **Scale 1:43** **Approx. length 96mm**

## 🔴 Triumph Spitfire Mk 3 - Valencia Blue

The Spitfire was introduced in 1962 and priced to compete with the MG Midget. This, the Mk 3, was launched in 1967. Features of the model include working suspension, photo-etched chrome parts, and detailed wheels, hubs and tyres.

**Ref: VA06711 £11.99** **Scale 1:43** **Approx. length 85mm**

**NEW LIMITED EDITION**

Four brand new releases reflect the diversity of the vehicles employed across our police forces. Each is a Limited Edition, and each has been meticulously researched to guarantee authenticity of the different liveries. All models feature detailed interiors, accurately reproduced roof 'furniture', photo-etched chrome parts and detailed wheels, hubs and tyres. Note the unusual Diplomatic Group Princess, modelled on one of only eight with the Metropolitan Police.

## Land Rover Defender - Police Service of Northern Ireland

With the lowering of the political temperature in Northern Ireland, standard issue Land Rovers have largely replaced the armoured versions of The Troubles. Features detailed roof light and wheels.

**Ref: VA09703 £14.99** Scale 1:43  
Approx. length 105mm

**EDITOR'S CHOICE**

## Austin Princess - Diplomatic Protection Group

The Diplomatic Protection Group (DPG) of the Metropolitan Police were painted in this distinctive maroon to make them instantly identifiable to diplomats and other distinguished visitors in the capital. Our model is based on one of only eight Princess cars used by the DPG.

**Ref: VA10202 £12.99**  
Scale 1:43  
Approx. length 105mm

**NEW LIMITED EDITION**

## Tayside Police Set - Land Rover Defender & Ford Sierra Sapphire

This pair of 1:43 scale replicas of originals in the Tayside force evokes a blend of speed, power and elegance, as well as featuring authentic badging, fine detail rear view mirrors and detailed interiors.

**Ref: TP1002 £39.99** Scale 1:43  
Approx. lengths: Defender 105mm, Sierra 104mm

**NEW LIMITED EDITION**

## MGZT - Police Service of Northern Ireland

Our replica is modelled on vehicle registration PCZ 4361, the 190 bhp MGZT operated by the Road Policing Unit based at Ballymena, County Antrim since 2003 (and tuned to 220 bhp for the purpose). Features of the model include a detailed interior, working suspension and detailed chassis.

**Ref: VA09304 £12.99** Scale 1:43  
Approx. length 108mm

**LIMITED EDITION**

## Jaguar XJ6 - Ayrshire Police

The original OCS 359H entered service with the Traffic Division of Ayr Police in 1970, the ideal high-speed car. Features include accurate badging and roof light, jewelled headlights and detailed wheels, hubs and tyres.

**Ref: VA08609 £12.99** Scale 1:43  
Approx. length 110mm

## 'The Coke Bottle'

Affectionately nicknamed 'The Coke Bottle' because of the lines of its profile, the MkIII was launched in late 1970. Though by then the original MkI and the MkII had been huge successes, times were changing. Both Continental and Japanese car makers were eating into the British market with vastly better specifications. Dagenham's answer was the MkIII. During its production life it received several upgrades and by the time it was discontinued in September 1976, it had sold an astonishing 1.1 million models.

## Ford Cortina MkIII 2000GT - Lancashire Constabulary

The MkIII Cortina 2000GT was an especially popular police car, as it could turn on impressive speeds as and when required, particularly on traffic duties. This replica features photo-etched chrome detail, fine detail wipers, working suspension, and detailed wheels, hubs and tyres.

The new Forward March series of spun-cast white metal figures brings to life some of the key military events of our country's past. From Trafalgar to El Alamein, from notable wartime leaders to civilians at war, the series accurately portrays figures of the time. Uniforms, equipment (where relevant) and style of dress have been painstakingly researched, and each figure has been meticulously hand-painted to achieve compelling authenticity.

## Royal Marine Sharpshooter - Battle of Trafalgar

Though it was the broadsides of the capital ships that determined the outcome of the battle, the sharpshooters played a crucial role in identifying and picking off key officers and men in the opposing fleets. Our figure represents one of ours: it was one of theirs that mortally wounded Nelson in his hour of victory.

**Ref: CC59165 £9.99**  
Scale 1:32  
Approx. height 54mm

## Royal Navy Signaller with Flags - Battle of Trafalgar

"England expects every man will do his duty." The most famous signal in our history was hoisted as the English fleet closed with the combined French and Spanish fleets off Cape Trafalgar on the 21st October 1805. This 1:32 scale figure immortalises a moment in the preparation of that signal.

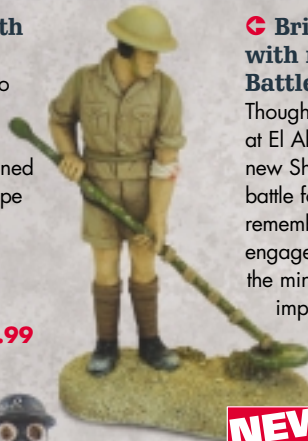

**Ref: CC59156 £14.99**  
Scale 1:32  
Approx. height 54mm

## ARP Rescue Party Member 1940 - Civilians at War

By day they were clerks in the City, or shop assistants, or you and me. But by night they were in the forefront of a terrifying battle. The ARP (Air Raid Precautions) rescue parties performed a crucial task through the nightmare of the Blitz, saving thousands of lives at exceptionally high risk of their own.

**Ref: CC59160 £9.99**  
Scale 1:32  
Approx. height 54mm

## British Infantryman with mine detector - Battle of El Alamein

Though armour played the pivotal role at El Alamein, and in particular the new Sherman tanks, engaged in battle for the first time, it should be remembered that without the infantry engaged in operations such as this, the mine fields might have proved an impenetrable barrier to victory.

**Ref: CC59158 £9.99**  
Scale 1:32  
Approx. height 54mm

## Delta Force Operative - Desert Storm

Closely modelled on our own SAS, the U.S. Delta Force was founded in 1977. It is specifically committed to counter-terrorist operations outside the United States, and in the 1991 Gulf War (Desert Storm) was assigned to locate and destroy mobile SCUD launchers in Iraq's northern deserts.

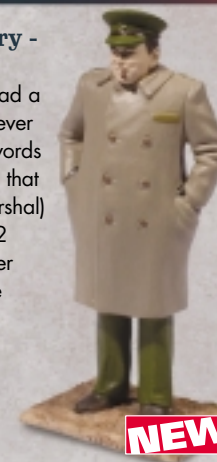

**Ref: CC59159 £9.99**  
Scale 1:32  
Approx. height 54mm

## General Montgomery - Battle of El Alamein

"Before Alamein we never had a victory. After Alamein we never had a defeat." Churchill's words summed up the turning point that was General (later Field Marshal) Bernard Montgomery's 1942 victory with his 8th Army over Rommel's Afrika Korps in the North African desert.

**Ref: CC59150 £9.99**  
Scale 1:32  
Approx. height 54mm

## Winston Churchill 1945 - Great Leaders

Prime Minister through the crucial war years of 1940 to 1945, was he the greatest Prime Minister of the 20th Century? A recent poll suggested he came only 4th, but as one correspondent to the Daily Telegraph pointed out, without him, there probably wouldn't have been the ten who came after!

**Ref: CC59161 £9.99**  
Scale 1:32  
Approx. height 54mm

## British Military Policeman with Sniffer Dog - Desert Storm

Though the British troop commitment of 43,000 to Operation Desert Storm was dwarfed by the United States' 540,000, our troops were largely specialist units providing a dimension far greater proportionally than mere numbers suggest, including specially trained sniffer dog detachments such as this.

**Ref: CC59151 £14.99**  
Scale 1:32  
Approx. height 54mm

Accompanying the Forward March series are exact size replicas of famous medals, including the Victoria Cross and the Burma Star. Each medal is presented in its own framed case.

# Collectables | Anniversary

As you will be aware, 2006 is exactly 50 years since the first Corgi models appeared in July 1956. To mark this milestone Anniversary, we commissioned a number of special Limited Editions, most limited to exactly 2,006 pieces available worldwide. Each comes with a 'birthday present' from Corgi to you, in the form of a voucher giving you a discount on any future Corgi purchase. Note that availability of Anniversary models will cease at the end of 2006, so now's your chance!

## Ford Consul – Brown ➡

The 200 Ford Consul was the very first true Corgi model, built to 1:46 scale, and available in brown, green, cream and grey. Our model featured here is a replica made exactly as the 1956 original: metal chassis, turned wheels and, of course, windows!

**Ref: AN01101 £29.99**  
Scale 1:46 Approx. length 91mm

## Austin Seven Cooper – Tartan Red ⬆

Produced as one of the 'British Icons' series, and available in a special limited edition, this 1:36 scale version of the 1961 Austin Seven Cooper (later re-christened the Mini Cooper) reproduces the original Corgi casting of 1996. The model comes complete with a facsimile of the original Autocar road test report.

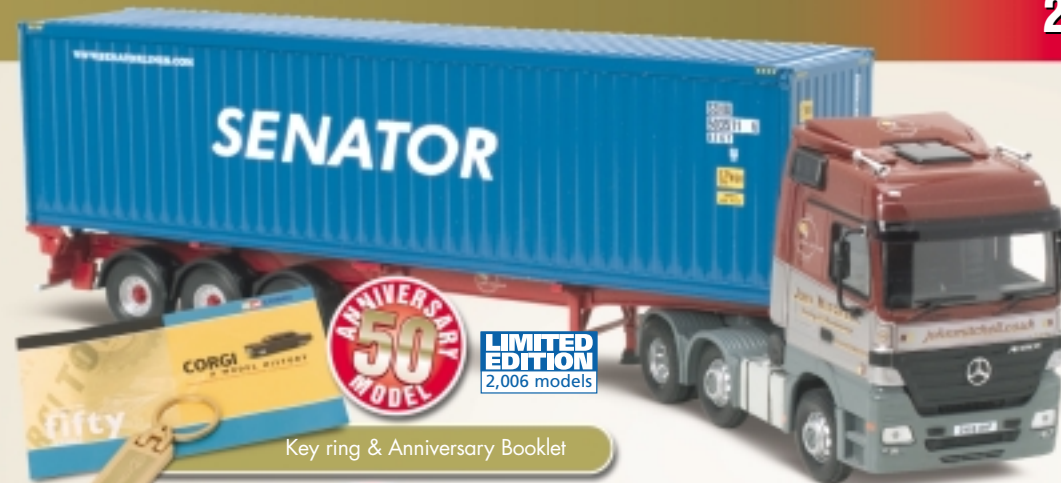

**Ref: AN02528 £29.99** Scale 1:43  
Approx. length 70mm

## Range Rover – White Gold ➡

So stylish that it became the first vehicle to be exhibited in the Louvre, the Range Rover went on to this third generation, launched at London's Design Museum. Our model reproduces the actual model road tested at the time, and comes with a reprint of the original road test report.

**Ref: AN09607 £29.99** Scale 1:43  
Approx. length 115mm

## Scania R Series Curtainside – Tinnelly Transport ➡

Produced to exact 1:50 scale, this Scania R Series with its curtainside trailer represents an icon of the Corgi tradition of big road transport beasts. Presented in special Corgi 50th Anniversary packaging, and in an edition limited to only 2,006 models, this Northern Irish model is eminently collectable.

# Collectables | Original Omnibus

The Original Omnibus Company offers you no fewer than seven brand new models, including the Wright Urban Eclipse, produced from new tooling for 2006. This selection really does epitomise the breadth of the OO series, featuring replicas of vehicles from as long ago as pre-World War II right through to the early years of the 21st Century. Reproduced to exact 1:76 scale, each Limited Edition offers a precisely scaled and impeccably die-cast and hand-finished collectable.

**NEW** LIMITED EDITION

## Van Hool T9 - WA Shearings

As up to date as can be imagined, the livery of this 1:76 scale replica flaunts the brand new livery of the amalgamated Wallace Arnold & Shearings coach holiday operators, first shown on the vehicles this year. Coach 710, (registration MX05 AHA), which is reproduced here to exact 1:76 scale, became one of the first repaints.

**Ref: OM45907 £24.99 Scale 1:76 Approx. length 160mm**

## Roe Trolleybus - Maidstone Corporation

The original of this replica has an interesting history. It was originally a Sunbeam W produced in 1944, with a Park Royal UH30/26R body. It was rebodied in 1960 by Roe (H34/28R) in the form we see here, and can be seen in its preserved state at The Sandtoft Transport Centre, near Doncaster.

## East Lancs. Lowlander - Sanders Coaches

Our 1:76 replica reproduces one of two DB250 Myllennium Lowlanders that replaced the last of the Leyland Olympians in the Sanders fleet. Features of the model include full passenger seating, detailed driver cab interior, accurate destination signage and fleet badging.

**Ref: OM42515 £24.99 Scale 1:76 Approx. length 145mm**

## WrightBus Urban Eclipse - Whitelaws Coaches

The original of this 1:76 scale replica is a Volvo B7 RLE with WrightBus Urban Eclipse body, which was introduced into the Whitelaws fleet in July 2004. Produced from new tooling for 2006, the model features detailed wipers and rear view mirrors, full passenger seating, and precisely matched paint colours and badging.

## The Eclipse Urban

Wrightbus's Eclipse Urban was announced in April 2003, a full-size single decker, low entry, floline floor vehicle with optimised seating. Based on the Volvo B7RLE underframe, the Eclipse Urban, like all Wrightbus models, underpins the company's reputation as the United Kingdom's leading supplier of accessible buses.

The South Lancs. Firm of Whitelaws have been loyal Wrightbus customers since buying their first Crusader in 1999, and is one of a large number of family-run businesses choosing Wrightbus. The first Eclipse Urban was introduced into their fleet in July 2004.

# Collectables | Original Omnibus

## Blackpool Balloon Tram - Mystique Cabaret of Magic and Illusion

It may be hard to believe, but the original of our replica first entered service in 1934. The side panel area of the Balloon design makes it particularly suitable to show off the signwriter's art.

**Ref: OM43510 £29.99 Scale 1:76 Approx. length 170mm**

## Bedford Val - Kenzies Coaches Ltd

A familiar sight at the annual UK Coach Rally in Brighton, GUP 743C first entered service in April 1965 with Kenzies of Royston in Cambridgeshire. Features include photo-etched wipers and full passenger seating.

**Ref: OM42412 £19.99 Scale 1:76 Approx. length 145mm**

## Brush Railcoach - Blackpool Transport

This Brush Railcoach carries the advertising signage of one of the most famous traditional markets of them all. Other features include a detailed interior, chassis and wheel configuration, as well as the distinctive 'tower' pantograph support.

**Ref: OM44011 £24.99 Scale 1:76 Approx. length 170mm**

## Wright Eclipse Fusion - First York

Our replica reproduces a 55-seat Wright Fusion body built on to a Volvo B7BLA articulated, in the colours of First York, voted Public Transport Operator of the Year in 2005. The model features realistic articulation, the authentic livery of the Park & Ride service, and five digit fleet number 10041.

**DUAL DESTINATION.**  
50% of models produced will carry the destination **Grimston Bar 8** and 50% will carry the destination **Askham Bar 3**

## Bristol K/ECW - Ensign Bus

The venerable original of this 1:76 scale model recently commemorated the last days of the Routemaster on London Route 38. This replica is owned by Ensignbus, Britain's largest used double deck bus dealer, and deserves a home in every good Original Omnibus collection.

**Ref: OM40701 £19.99 Scale 1:76 Approx. length 157mm**

## Leyland PD3/E. Lancs. - Black Prince

FTF 702F, a Leyland Titan PD3/4 with an East Lancs. 70 seat body came into service with Black Prince in 1984. On the 30th July 2005, it had the sad privilege of taking part in the last day of Black Prince operations. Features of the model include detailed chrome trim and full passenger seating.

# Collectables | Corgi Collection

With models priced as low as £4.99, The Corgi Collection is probably the most cost-effective way to build what amounts to a die-cast history of warfare in the 20th Century. The Collection features both aviation and land armoured models, and each model comes with a sticker of the model, which can be applied to a wall chart (free to collectors on request) until you have the complete set.

## Consolidated Liberator - RAF, SEAC

Overshadowed by its stablemate, the more glamorous B-17 Flying Fortress, the B-24 Liberator was nonetheless one of the most important aircraft of WWII. When it ended, the Liberator had become the most produced American aircraft in history.

**EDITOR'S CHOICE!**  
A great value Aviation model!

## Mitsubishi Zero - 401st Sentai

The Zero was Japan's most famous and heavily used aircraft of WWII, from Pearl Harbor to the last ditch kamikaze defence of the home islands. Its phenomenal manoeuvrability and range were due to its incredibly light construction.  
**Ref: CS90458 £4.99 Wingspan 98mm**

## Bell 205 (UH-1H) Iroquois - RAF Benevolent Fund Search & Rescue

Affectionately known as 'Huey', the Bell Iroquois was the utility helicopter of air forces around the world. Our model is based on an original sponsored by the RAF Benevolent Fund.  
**Ref: CS90464 £4.99 Rotor diameter 120mm**

## King Tiger Tank - Hungary

This model reproduces one of the most fearsome vehicles of World War Two. Developed to counter the dreaded Soviet KV-1 heavy tank, the Tiger was used more often as a mobile heavy artillery piece than as an attack tank.  
**Ref: CS90478 £4.99 Approx. length 120mm**

## Junkers Ju-87 Stuka - 'T6+HL'

Possibly the most feared weapon of the Luftwaffe across all Europe in the first three years of the war, the Ju 87 Stuka was deadly accurate, but its relatively slow speed rendered it highly vulnerable to enemy fighters.  
**Ref: CS90473 £4.99 Wingspan 106mm**

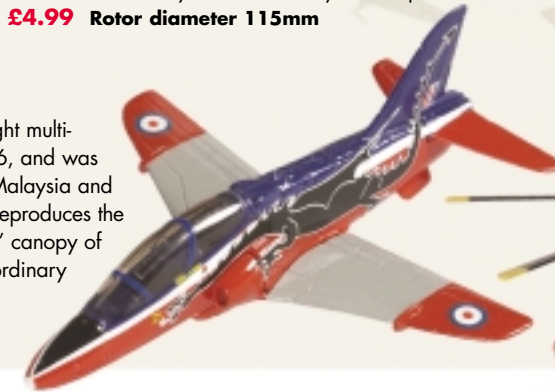

## Westland WAH-64 Apache - British Army Air Corps

Designed to hunt and destroy tanks and other difficult targets, the Apache Longbow attack helicopter replaced the Westland Lynx. Our model is based on a craft flown by the British Army Air Corps  
**Ref: CS90469 £4.99 Rotor diameter 115mm**

## BAe Hawk T MkI - RAF, St Athan Station

British Aerospace's Hawk 200 light multi-role fighter first flew in May 1986, and was successfully exported to Oman, Malaysia and Indonesia. Our model faithfully reproduces the low swept wing lines and 'blown' canopy of the original, as well as the extraordinary 'Welsh Dragons' livery.  
**Ref: CS90463 £4.99 Wingspan 83mm**

## The Queen's Flight

The Queen's Flight, in fact, no longer exists. On the 1st April 1995, it was merged into No. 32 Squadron RAF to become No. 32 (The Royal) Squadron. At the same time, the priorities of the squadron were re-defined "to provide communications and logistical support to military operations ... any royal or other non-military use of ... spare capacity is secondary to its military purpose".

## Westland Wessex HCC4 - The Queen's Flight

Built at Yeovil in 1969, the original of XV733 was the craft in which Her Majesty the Queen made her first helicopter flight in August 1977. It was used by virtually all the 'senior' Royals, including the Queen Mother and the Princess of Wales, and is now housed at the Helicopter Museum in Weston-super-Mare.

# Collectables | Road Transport

Here's a real feast for the connoisseur collector of precision die-cast: seven brand new releases in the 1:50 scale Road Transport series, surely the flagship models of Corgi Classics. The coupling of a Foden Alpha to a Houghton Parkhouse trailer is just one highlight of this selection, all of which are issued as Limited Editions. Depending on the model, features include poseable wheels, realistic airlines, opening bonnets, tilting cabs and fine-detail photo-etched wipers.

## Ford Transit Van - British Telecom

Featuring highly detailed chassis, wipers, wing mirrors and new highly detailed wheels, this replica reproduces the most up-to-date livery of British Telecom, a fleet which vies with British Gas for the claim to run the biggest fleet of Transits.

## 150 Years of Foden: the company's origins

Hancock & Foden was formed originally to build agricultural machinery and steam engines. Edwin Foden diversified into steam traction engines and, in 1901, introduced a successful steam lorry. With the decline of steam and the growing dominance of the internal combustion engine, it was time to change, and when the Board failed to agree, ER Foden left in 1932 and set up his own company, ERF. The first Foden diesels came on stream in 1934. In 1935 William Foden was persuaded to return to the company, which went on to become one of the most successful truck builders in our history.

# Collectables | Warbirds

One of the most exciting Corgi innovations of 2006, the Warbirds series reproduces iconic aircraft of World War Two. Each fighter is replicated at exact 1:72 scale, and reproduces a specific 'warbird' flown and fought by a specific fighter ace – and they come from both sides of the conflict. Each aircraft in the series has been carefully chosen by aviation historians to represent a specific, classic variant of the series, such as the Spitfire MkIA and the Focke-Wulf Fw 190A.

**BRAND NEW RANGE!**

**Supermarine Spitfire MkIA - Flt Sgt George Unwin**  
Pilots loved it with a passion. The Spitfire in the Warbirds collection is fittingly that flown by Flight Sergeant George 'Grumpy' Unwin over Dunkirk in those bleak days of 1940, in which he made 3½ 'kills'.  
**Ref: WB99601 £9.99**  
**Scale 1:72 Wingspan 156mm**

**P-51 Mustang III - Sqd. Leader Eugeniusz Horbaczewski**  
The first fighter which possessed the range to escort heavy bombers all the way to and from daylight raids over German cities, fighter ace Horbaczewski took command of Polish No. 315 Squadron in February 1944.  
**Ref: WB99602 £9.99**  
**Scale 1:72 Wingspan 155mm**

**Hawker Hurricane MkI - Flt Lt 'Pete' Brothers**  
Contrary to myth, the 'Hurri' was the main reason for RAF victory in the Battle of Britain. In the interests of speed, 'Pete' Brothers made a number of modifications to P2921, even having the external rivets filed down to reduce the drag on the aircraft.  
**Ref: WB99603 £9.99 Scale 1:72 Wingspan 167mm**

**A6M-3 Mitsubishi Zero - N.A.P. 1st Class Hiroyoshi Nishizawa**  
Japan's most famous fighter aircraft, the Zero ran rings around other fighters in the early days of the war in the Pacific. Hiroyoshi Nishizawa was accorded the soubriquet of the Imperial Japanese Navy's 'Ace of Aces', with a reputed 'kill' total of over 100 enemy aircraft.  
**Ref: WB99611 £9.99 Scale 1:72 Wingspan 165mm**

**Junkers JU87 Stuka B-2 - Hans Ulrich Rudel**  
Able to dive very steeply at relatively low speeds, the Stuka was remarkably accurate – and no Stuka pilot was more feared than Oberst Ulrich Rudel. So successful was Rudel at inflicting immense damage on the Russian Army (519 tanks alone destroyed) that Stalin himself put a price of 100,000 roubles on his head.  
**Ref: WB99608 £9.99**  
**Scale 1:72 Wingspan 190mm**

**Chance Vought Corsair F4U-1 - 2nd Lt Kenneth A. Walsh**  
By 1944 the Corsair had become the predominant US Navy carrier-based fighter in the Pacific. Kenneth A. Walsh scored 20 'kills' over the Solomon Islands, and was decorated personally by President Roosevelt.  
**Ref: WB99606 £9.99**  
**Scale 1:72 Wingspan 175mm**

**Focke-Wulf Fw 190A-4 - Walter Nowotny**  
Entering combat in the summer of 1941, the Fw 190 proved to be Germany's most lethal piston-powered WWII fighter. Leutnant Walter Nowotny was one of the greatest aces of the war, the first Luftwaffe fighter pilot to record 250 kills.
