CATALOGUE . КАТАЛОГ

COLD WAR, IRON CURTAIN, EAST BLOCK!

... all these words have now disappeared from our vocabulary and belong to history.

Amongst the things that will remain from this period are the automobiles that were produced, mostly in USSR, East Germany and Czechoslovakia, but also in Poland, Romania or Yugoslavia.

Simple, rustic, sometimes with anachronous design, they were built to endure tough roads and last forever.

Paying tribute to these unforgettable pages of automobile history, IST (pronounce it "East") brings to your collections a whole range of accurate 1/43rd replicas of the East Block cars.

ХОЛОДНАЯ ВОЙНА, ЖЕЛЕЗНЫЙ ЗАНАВЕС, ВОСТОЧНЫЙ БЛОК

...все эти слова исчезли из нашего обихода и стали историческим достоянием. Одним из символов того времени, сохранившимся в нашей памяти, являются автомобили, произведенные в странах СССР, Восточной Германии и Чехословакии, а также в Польше, Румынии и Югославии. Эти простые и незамысловатые, иногда с устарелым дизайном, автомобили были сконструированы для преодоления труднопроходимых дорог на вечное пользование.

Отдавая дань незабываемой истории автомобильного производства, модели IST (произносить «Ист») пополняют вашу коллекцию широким ассортиментом качественно выполненных реплик автомобилей стран Восточного Блока в масштабе 1:43.

IST MODELS PROMOTIONAL MODELS РЕКЛАМНЫЕ МОДЕЛИ

PROMOTIONAL MODELS Die-cast model cars have always been a very popular item for advertising and promotion, which represents an important market of our activity. From the racing driver who wants a limited number of models to contemplate it's sponsors ,to the cars manufacturer who will need tenths of thousands for a launching campaign ,IST Models can be your ideal partner.

We can:

- Use existing models with a customized decoration and/or packaging.
- Develop a model exclusively for you.

As long as the Production of other items involves same techniques...we can even produce other items such as airplanes or any metal and/or plastic molded items.

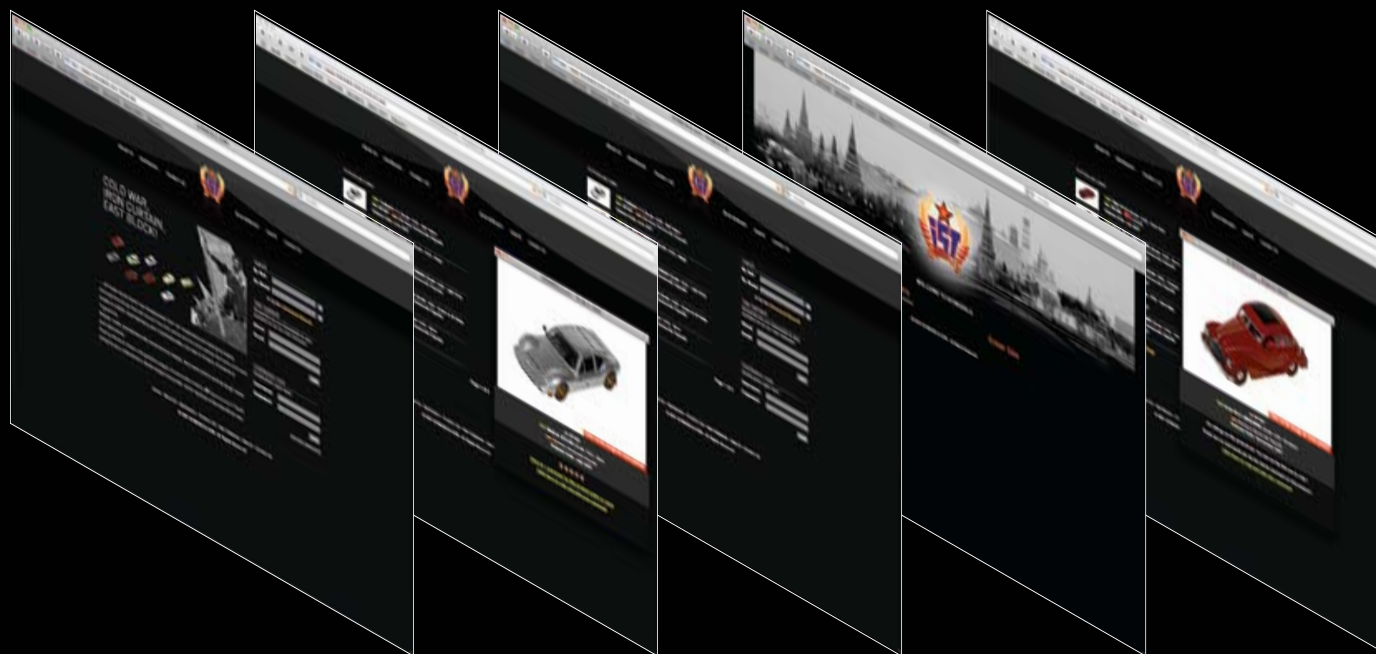

РЕКЛАМНЫЕ МОДЕЛИ Рекламные акции – это один из важнейших рынков нашего сбыта. Реплики, изготовленные литьевым методом, являются очень популярным материалом для проведения рекламных мероприятий . Модели IST удовлетворяют потребностям любого заказчика, начиная от гонщиков, которые нуждаются в ограниченном количестве моделей, чтобы порадовать своих спонсоров, заканчивая автомобильными производителями, которым необходимы десятки тысяч реплик для проведения кампании по выпуску новой модели автомобиля.

Мы можем:

- Использовать уже существующие модели с подбранной по заказу отделкой и/или упаковкой.
- Разработать модель исключительно для Вас.

Используя те же технологии производства, мы можем изготовить и другую продукцию, например самолеты или любые другие изделия, выполненные из металла и пластика .
