

2011 Product Catalog

WWW.MAISTO.COM

2010 was, by all accounts a difficult year, but Maisto more than met the challenge head-on by launching a dazzling array of new and innovative products that captured the imaginations of consumers all over the world. Coming off of this success, we are pleased to present you with our 2011 Product Catalog.

We have once again pushed our development teams to create unique product that will surprise and delight. In 2010, we offered over 60 new titles in our catalog. This year, the number is closer to 90, which does not include new designs and colors. What it does include is:

8 brand new radio control titles, including the Hobby-Grade Baja Beast, and the little brother of our Rock Crawler – Rock Crawler Jr. 5 brand new 1:18 titles, including the Mercedes-Benz SLS AMG, featured on our cover in it's exclusive, made with Swarovski Elements form. A brand new, 1:6 scale Ducati GP Racing motorcycle, as well as 1:10 and 1:18 scales, all ready earlier than ever in the race season. New Fresh Metal Play Sets 5 unique brands under the Marvel banner, including a sensational new line based on the Super Hero Squad TV show.

We sincerely appreciate your consideration of the products contained within these catalog pages, and we encourage you to visit us on-line at www.maisto.com, to get the very latest information on even more new products. We wish you very healthy and prosperous 2011.

RADIO CONTROLLED

Max performance for racing and jumping

- Hobby-grade features
- Coil-over shocks and long-travel suspension for maximum control
- Lightweight, but tough, vac-formed body
- Massive off-road tires
- Large pro-style controller with digital proportional steering
- Tri-channel transmitter so three people can play simultaneously if they have their own Maisto R/C vehicles
- Extra-long range
- Approx. 13" long
- Requires 7.2V 1000mAh NiMh Rechargeable battery pack for the vehicle and 1 9V battery for the controller (batteries included)

* #81132
Full-color window box, Asst.,
Outer: 2 Pcs.

Popular size and popular price make these winners. New styles and colors!

The designs and execution made the product look like die-cast replicas, but the fast-action full force speed brought home the Radio Control fun. All models include the dashboard hand controller with assorted multiple frequencies marked on the package so up to two cars can be driven simultaneously.

- Featuring rims by premiere wheel makers
- 2 "AA" batteries for vehicle & 9V (6F22) battery for controller (not included)

SHADOW-2X

RADIO CONTROLLED

Narrow like a bike, wide like a car - the Maisto Shadow-2X is the future. In the narrow mode, the 2X can drive through tight places a car could never go. Press the Morph button on the remote and watch the 2X expand to full width as a red strobe on top flashes during the transition. Then the Cyclops headlight on the front glows red and the 2X is ready for more action with the increased stability of the wide-track wheels. For maximum maneuverability it can spin 360 degrees then zoom off in any direction under complete control with the twin-stick controller.

- Nearly 16" long in narrow mode
- Requires 4 AA batteries for the 2X and 1 9V battery for the controller (Batteries not included)
- Tri-channel transmitter so three people can play simultaneously if they have their own Maisto R/C vehicles

#81125

Full-color window box, Asst.,
Outer: 2 Pcs.

MENACE

RADIO CONTROLLED

The 12-inch-long Menace hauler drives and steers like other R/C toys but there the similarity ends. When you arrive on scene, blast away the bad guys with the disk shooter built in to the front panel. Reload in a hurry by lifting the cab roof and dropping disks in. Flip a switch on the transmitter to power the X3 Scout down the auto-load ramp. The 7-inch-long X3 is a full R/C vehicle with steering and forward-backward control. Scope out the situation then return to the Menace — the ramp raises automatically when you're back on board.

- Meets or exceeds safety regulations for projectile toys
- Controller operates the Menace or the X3 Scout but not both at the same time
- Requires 6 AA batteries for the Menace, 3 AA batteries for the X3 Scout and 1 9V battery for the controller (Batteries not included)

#81120

Full-color window box, Asst.,
Outer: 2 Pcs.

BLADE ROVER

RADIO CONTROLLED

Real flying 'copter launches from the R/C truck

Full-function R/C truck carries a real flying helicopter. Drive to the launch location then press the button on the controller to rev up the chopper blades and watch it take off. The 'copter rises about five feet then flies forward to a gentle landing. A safety ring around the propeller protects the blades from contact.

- Launches copter by radio control
- Approx. 9" long
- Requires 4 AA batteries for the truck and 1 9V battery for the controller (Batteries not included)

RADIO CONTROLLED PROJECT : 66

Project: 66 was to be the latest in the Street Troopers line of urban defense – a R/C vehicle that can fire at will, either from a stationary or moving position and morph back to vehicle mode undetected. It was a highly classified project until a rogue scientist stole the Project: 66 prototype, and the blueprints for PT-808. The government had already begun top secret production on Project: 66 – and quickly pushed ahead on PT-808. Had anyone else?

Vehicle Mode

A blue and red toy car, possibly a remote-controlled car, is shown from a front-facing perspective. The car has a prominent red 'W' logo on its front. Above the logo, the word 'WHEELER' is written in red. The car has two large red wheels and a small antenna on top. The background consists of a grey surface with a pattern of white circles.

TECH

IR FLYWHEEL REMOTE CONTROL

Zoom off to adventure with remote control motorcycles. Bike runs at slow speed with the direction controlled by the infra-red controller. For higher speed, press the "Turbo" button. A flywheel spinning inside the bike keeps it upright.

- Vehicle has built-in rechargeable batteries
- Vehicle attaches to the controller for recharging
- Requires 4 AA batteries for the controller (not included)

The evolution of the machine has reached a new level. Mankind has produced what we have all feared...robots that think and feel. There is only one hope for us... CYKONS. These top-of-the-line robots have been built for extreme battle situations. With their help we will battle the machines that want to keep us as slaves so we can return to our daily lives.

- Transformable from motorcycle to robot
- Approximately 4" long
- Accessory weapon included
