PK-162 Exeter

Bigger and more detailed, the 1/700th scale orange range features larger warships of world war II. Each waterline model comes with its own detailed paint plan but because "MATCHBOX" ships are moulded in two authentic colours they'll look good even unpainted.

These finely detailed action figures now come in two different scales 1/32nd and 1/76th. There are 50 figures in the 1/76th scale pack and 15 in 1/32nd scale pack and they are both the same price.
