# **'MATCHBOX'**

## **1-75 RANGE**

Perhaps the world's most collectable cars.

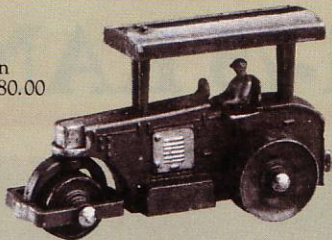

For years, 'MATCHBOX' cars have had a special appeal to collectors all over the world. Maybe it's the quality. Maybe it's the fine attention to detail. Maybe it's the fact that there are always new models available to add to the collection.

If you haven't started your collection yet, now's the time to do it. There are 75 different cars available in the 'MATCHBOX' 1-75 range. And there are new ones added each year.

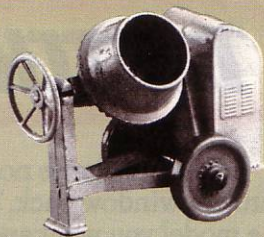

*Mr. David Leeman, of Sydney, Australia, with one of his models from his collection of 2,500. Some of these cars are 25 years old, and provide a unique record of the changes in motor car design over the years.*

*Their value? To Mr. Leeman, they're priceless.*

# 1-75 RANGE

There are always 75 models in the Collectors' Series. During each year the colour or decoration of any model may be changed to add interest for collectors. At different times a particular model in the series may be terminated and

replaced by a completely new design using that same number. Details of new models to be brought into the series in 1983 are provided.

Watch out for the new models during 1983.
