A True Test

Start by trying to choose one—just one—of the over 140 Matchbox Diecast vehicles.

Turbo? Fire engine? Mud Racer? The '57 Chevy you owned 'way back when?

It's not an easy choice, is it—to choose just one for now?

Open the package. Put your choice on your desk.

If you're like most of us, you'll find very soon that you haven't lost the power of creative play. (Watch how many visitors play with your Matchbox car, too.)

Why *is* that?

Consider this: Wheels don't stick. Parts move smoothly. Detailing is absolutely precise. Styling is very, very accurate. And the toys don't break.

Traditional Matchbox quality never varies; never has, never will...whether you still own a childhood classic or just chose one of this year's exciting new innovations.

Realism, play value and durability combine to let your imagination run free.

That's why kids come back to Matchbox again and again, just as they have since you were a kid.

And why you can still run the first 250mph lap at Indy without ever leaving your desk.

Miniature Diecast Vehicles

Asst. 010774-7

Four hot-selling assortments—a total of 75 proven favorites, from Indy Racers to construction equipment, fire equipment to 4x4s. Every one features the high quality, meticulous detailing and authentic color schemes that keep Matchbox the leader year after year.

The Matchbox 1-75 line features 13 new models, 14 redecorated styles and 24 models with moving parts for 1987, to make "The Automotive Superstars" move even faster!

No Batteries Required.

What gives some action toys more play value—and longer play value—than others?

Involvement? Imagination? Versatility?

All of the above.

Take some battery-powered toys, for example.

Their “play” pattern requires a child to push a button, then watch the toy play by itself.

That’s fun once, but not for long.

We believe that a toy should offer hours, days, even years of involvement.

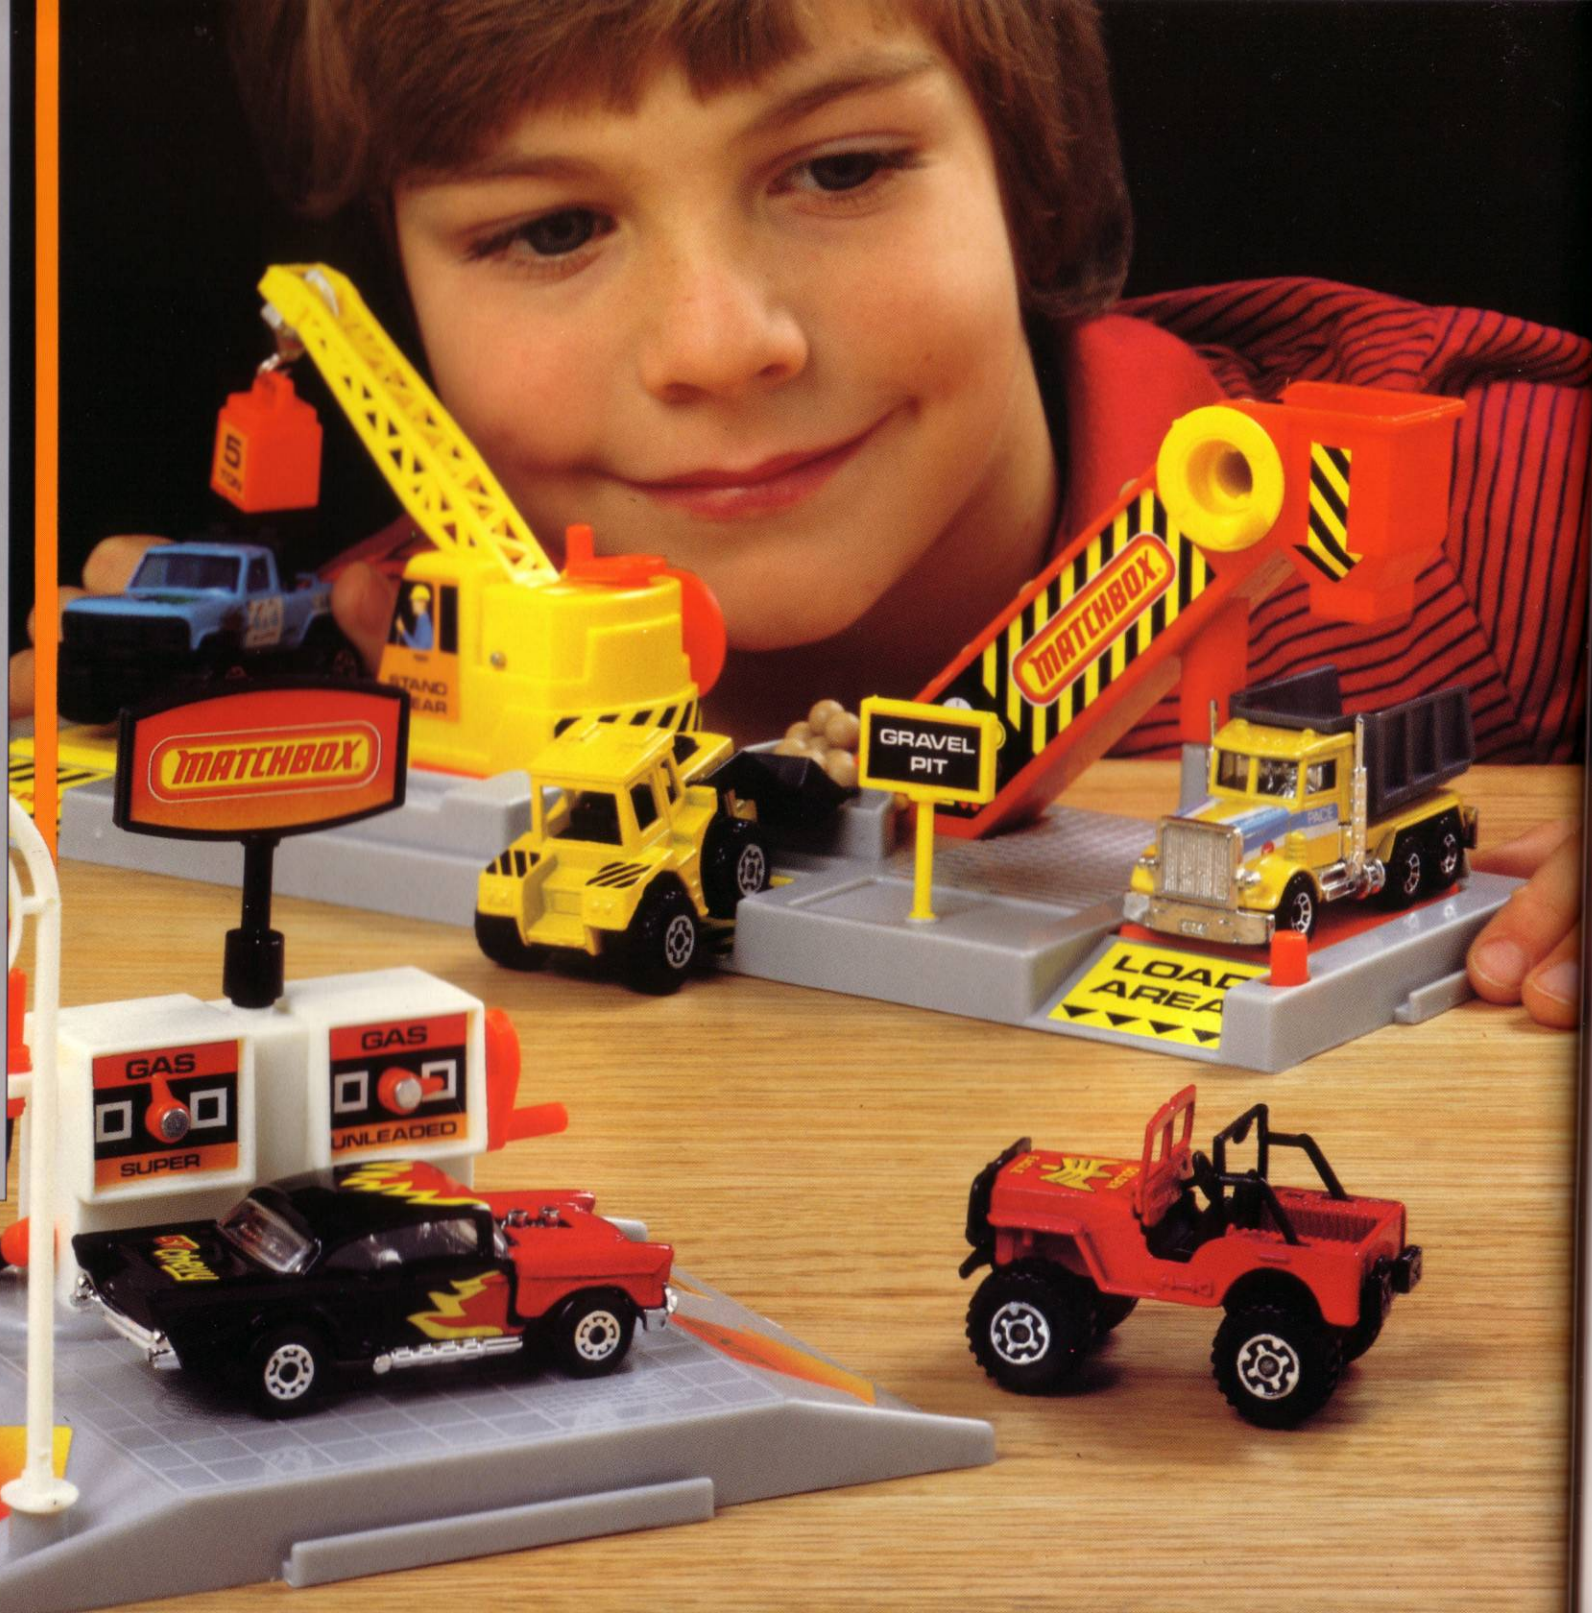

That’s why Matchbox has always believed in an alternative power source for our diecast accessories.

Kid power.

Our diecast playsets and action accessories are filled with moving cranes, elevators, ramps, and other action features that work exactly the way a kid wants them to, because kids provide the play patterns, the imagination, and the action.

That’s why kids can get involved with Matchbox toys.

And with Matchbox strength and quality, they can stay involved, long after batteries die and other toys are forgotten.

Motorcity™ **Playsets** **Asst. 1401K**

Create an entire action-packed town for Matchbox Miniature Vehicles without a single battery! Motorcity™ Playsets are packed with real action features. Signs turn. Cranes work. Conveyors move . . . and a special interlocking modular design lets young drivers create any layout they wish. (Vehicles sold separately).

Individual Pkg. Size:
 4 3/8" x 4" x 6 1/16"

Master Carton Size:

MBX—Matchbox "Experimentals".

The next step forward in die-cast vehicles.

Traditional Matchbox quality, styling and dependability...in vehicles that power themselves.

It has been done, for 1987, by Matchbox.

Burnin' Key Cars leap into high-speed action with the squeeze of a power key.

Blazin' Turbos blast away when they're pulled backwards and released.

Duelin' Dragsters flash from their launchers toward the finish line.

Engineering innovations like these are a tradition at Matchbox.

And the quality and precision-made strength remain a Matchbox standard.

New!
High Performance
Burnin' Key Cars®

Asst. 2200

All new from Matchbox MBX for 1987 . . . Burnin' Key Cars . . . the cars with the key to speed! Insert the Power Key, squeeze, and a Burnin' Key Car "burns" off the line, headed for victory.

There are 12 exciting new styles for 1987, each with improved performance, new styling, and designed for burnin' acceleration!

12¼" x 8¾" x 6½"

Pkd: 12

Wt: 3.0 lbs.

Cube: .40 cu. ft.

RoadBlasters

The Ultimate Race

In the distant future, two teams of high speed, heavily armed racers supported by a varied array of powerful vehicles are locked in an unending race for victory.

The Turbo Force, led by the valiant Thunder Gunner, seeks to win through skill and determination while upholding the "Code of the Road".

Their vehicles are known for their dependability and precision engineering. When a job needs doing, the Turbo Force is there.

Against them stands a powerful —perhaps unbeatable— enemy.

Led by the evil Motor Master, the Motor Lords are committed to winning the race at all costs, without regard for safety or the "Code of the Road".

Their vehicles are known for their almost uncontrollable raw power—it is not uncommon for a Motor Lord to completely destroy his vehicle (and everything around it) in an attempt to beat the Turbo Force.

Who will win? The outcome depends on skill, luck, speed—and a child's imagination—in the newest and most exciting concept in diecast vehicle action racing systems.

The Road Blasters . . . Power That Rules The Road.

New!

TV

Road Blasters™

Turbo Force

Led by the valiant Thunder Gunner, the Turbo Force seeks to win the Ultimate Race of the Future through skill and hard work. Count on them to uphold the "Code of the Road".

Thunder Gunner, the leader, is a high speed, highly maneuverable racer protected by deflector panels and armed with thrust rockets and lasers. Racing with Thunder Gunner are the awesome Speed King and powerful Streaker.

To help them vanquish the evil Motor Lords, the Turbo Force racers are aided by a series of heavily armed and armored support vehicles, including Road Razor, Street Eater, Barrel Bomber, Road Raider and Car Pow. Each provides the Turbo Force with a different specialty.

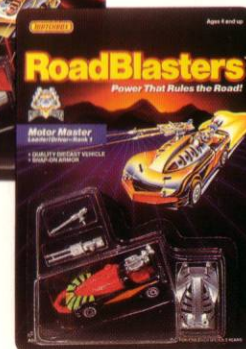

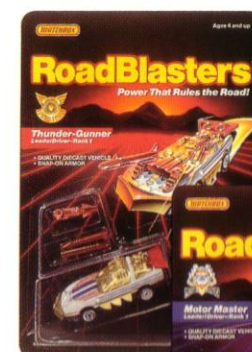

Motor Lords

Masterminded by the evil, unprincipled Motor Master, the Motor Lords intend to win the Ultimate race of the Future by any means and at any cost...without regard for safety or the "Code of the Road".

Motor Master, the leader/driver uses raw power to achieve incredible speeds. He is armored with Titanium and armed with lasers. Killer Zee and Turbo Special are the back up racers for Motor Master.

Like the Turbo Force, the evil Motor Lords also call on powerful, heavily armed and armored support vehicles, to help them win. Their team includes Tow Nailer, Backstabber, Rampager, Stick-Up Pick-up and Parasite.

New!
Road Blasters™
Squadron Sets

Asst. 2501

Road Blasters Squadron Sets come complete and ready-to-race with 1 speed "driver" and two powerful support vehicles from the Road Blasters series.

Run the Gauntlet
Race Set

2560

"Run The Gauntlet" combines the best of high speed action racing with the excitement of diecast Road Blasters playsets. A high powered ram launcher fires the Thunder Gunner vehicle into a loop, over a ramp and through the deadly gauntlet obstacle course. Luck, skill and courage can make you a winner...or you can crash in the loop, on the ramp, or be crushed by the gauntlet obstacle.

"Run The Gauntlet" comes complete with: "Thunder Gunner" diecast Leader/Racer vehicle and removable action accessories, including:

- Ram Blaster launcher
- Over 6 feet of track
- Turbo loop
- Deadly Gauntlet Obstacle
- Jump Ramp
- Rally Point Finish Gate
- Diecut play set
- No batteries required

through the turbo loop.

Will he make it through the deadly gauntlet?

Watch the fireworks as the Rally Point finish line is crossed.

New!

Power Kings™

Asst. 2520

In the unending race between the Turbo Force and the Motor Lords, the Power Kings are giant support vehicles, awesomely powerful, and with the ability to become virtually indestructible work and battle stations. Made of rugged die-cast construction, the Power Kings are capable of being assembled into literally hundreds of different configurations.

Individual Pkg. Size:
15" x 8¼" x 4"

Master Carton Size:
15¼" x 8½" x 24¼"

Pkd: 6

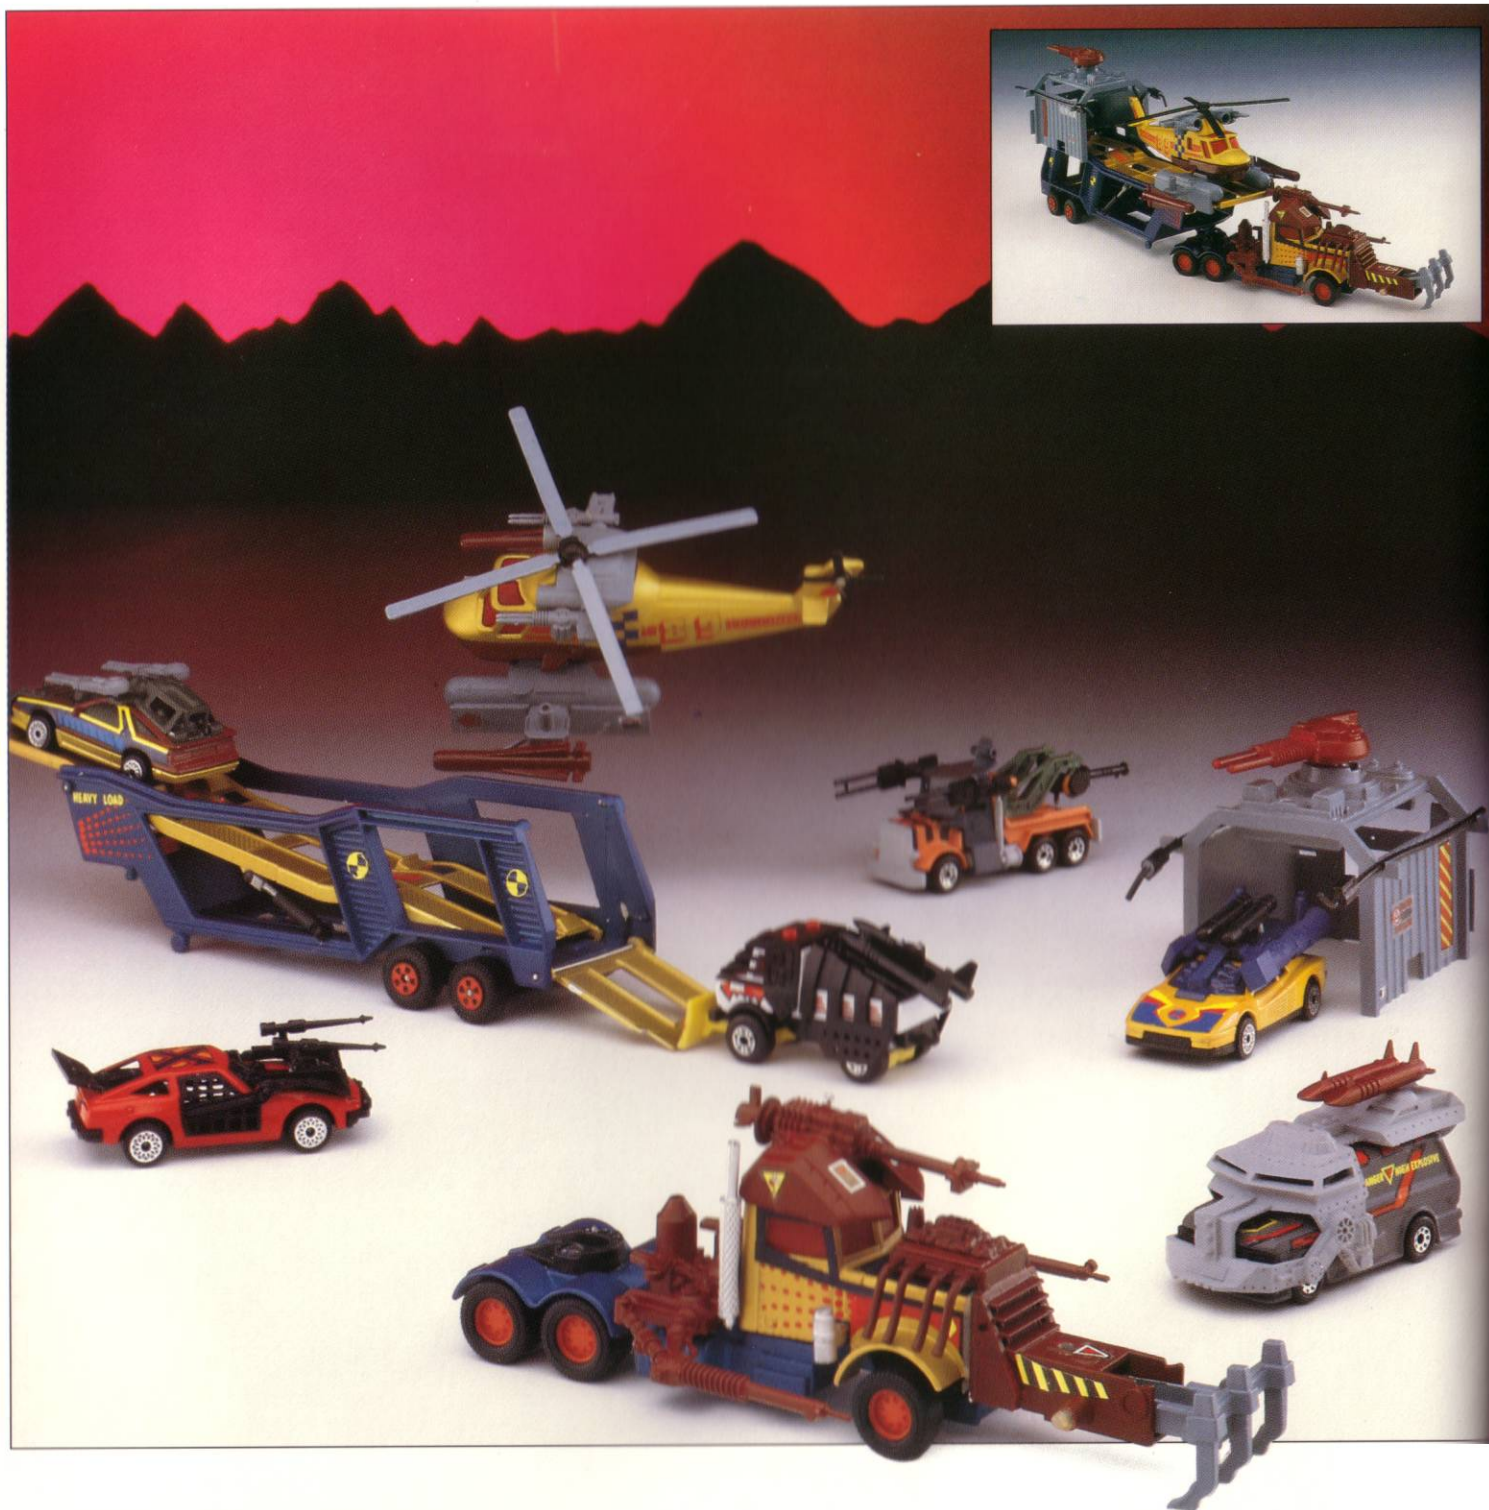

Wt: 15.0 lbs.

Cube: 3.5 cu. ft.

Air and Land Transport and Repair Center

The Air and Land Transport and Repair Center, or A.L.T.R.C., was created to give the Turbo Force the ability to instantly rescue, transport and repair its disabled vehicles. The A.L.T.R.C. includes:

- Interchangeable, snap-on armament
- Sprint rescue helicopter with spinning rotor
- Working diecast transport trailer ramp
- Modular repair bay/defense shields
- High-quality diecast construction

Vehicular Modification and Destruction Center

The Vehicular Modification and Destruction Center, or V.M.D.C., is a heavily modified boom crane with enough powerful accessory equipment to destroy, modify and redesign almost any Road Blasters vehicle—and to repel any attempt to penetrate its security at the same time. The V.M.D.C. also has a special drone vehicle to move heavy parts quickly. Its features include:

- Working Boom Crane
- Rolling drone vehicle
- Interchangeable snap-on weaponry
- Interchangeable grabber hook, claw, auger and wrecking ball
- Strong diecast construction

New!
Power Kings™

Asst. 2530

In the unending race between the Turbo Force and the Motor Lords, each team has at its command one massive, almost unbelievably versatile Power King vehicle. Capable of transforming themselves into an astonishing variety of virtually indestructible work and defense stations, these Power Kings—the Turbo Force U.C.S. and the Motor Lords M.M.C.C.—are in reality the command vehicles for each team.

Individual Pkg. Size:

15" x 8¼" x 4"

Master Carton Size:

15¼" x 8½" x 24¼"

Pkd: 6

Wt: 15.0 lbs.

Cube: 3.5 cu. ft.

**Universal
Command Shuttle**

The Universal Command Shuttle (UCS) is the only one of all the Road Blaster and Power Kings vehicles that can travel in any environment. On the road, its power makes it virtually unstoppable. In the air, it becomes a formidable shuttle craft with speed, power and agility at its command.

The UCS also functions as a working command station for the Turbo Force. Each modular section is a virtually indestructible panel that can be assembled into any number of structures to aid the Turbo Force in their quest for victory.

Its features include:

- Parts and panels to create a complete modular playset
- Snap-on armament
- Interchangeable weaponry

Mobile Modular Command Center

The Mobile Modular Command Center (M.M.C.C.) is the awesome, almost impenetrable rolling fortress through which the Motor Lords' evil plans are filtered. A set of light weight, virtually indestructible modules form various different structures used by the Motor Lords to plan their ambushes and racing strategies. The M.M.C.C. features:

- Powerful rolling overhead crane
- Special modular building panels
- Interchangeable snap-on armament
- Command bunker
- Armor panels that double as vehicle transports
- High quality die-cast construction
- Separate armored cab

Hot Rod Racers™

Asst. 2100

Big 1/20th scale, customized muscle cars that work, sound, and rev like the real street racers they're patterned after; the classic '57 Chevy, the powerful Corvette Stingray, the ultra-hot Firebird. New for 1987—the incredible Ferrari, and an awesome Mustang Police Car with working roof lights!

Each battery-powered engine has four settings (4 "AA" batteries not included):

- Deep-throated idle.
- Mean engine rev.
- Cruisin' speed.
- High-speed for poppin' wheelies.

Individual Pkg. Size:

6½" x 6½" x 11¼"

Laser Flash™

The power of light has been harnessed as never before by Laser Flash System.

Not an infrared system, Laser Flash, designed and engineered by Sega, is new generation technology that uses visible light to let you see when you hit the target ... and when you miss. Squeeze the micro switch trigger and the super accurate 'xenon flash system' optics project a distinctive rectangle of safe, white light onto the target. 1.2 second recovery means that you're ready to fire again, *quicker than any other existing system.* The Laser Flash System offers superior performance outdoors as well as inside.

The accessory technology is also new generation. Laser Flash Targets register hits from as much as a 180° incidence angle and have three different skill levels built into them. Use 'em for target practice or in Flash Force™ multi-player competition. Laser Flash—new generation technology that harnessed the Power of Light.

MY PRECIOUS PUFFS™

The title 'MY PRECIOUS PUFFS' is rendered in a highly stylized, bubbly font. The word 'MY' is in a smaller, bold, black font. 'PRECIOUS PUFFS' is in a larger, pink-to-white gradient font with a thick purple outline. A large, solid pink heart is positioned centrally below the word 'PRECIOUS'. The entire title is framed by decorative, swirling lines and small cloud motifs. The background of the top half of the page is a clear blue sky with soft, white clouds.

Make a Wish

Have you ever made a wish on a dandelion puff? Your wish is carried to the faraway valley of Puffville. The valley is a colorfully quilted landscape dotted with village shops and musical carousels in spacious parks.

There, tiny friends called "My Precious Puffs" plant your wish to make magical dandelions grow in all the colors of the rainbow.

"My Precious Puffs" are full of whimsy and wishes and the whole valley is perfumed with their gentle fragrance. Their soft, fuzzy colors, secrets and fun are made from special springtime wishes from little girls.

New!**TV****My Precious Puffs™****Asst. 3300**

Little girls will love to wear the soft, fluffy My Precious Puffs wherever they go! Each Puff has a velcro dot and fabric band that can be attached to make a Puff bracelet or connected with other Puffs to become a necklace or a hair band.

Each Puff is scented and comes complete with a locket that opens to reveal a secret message inside, a key comb and her own special accessory. 18 different Puffs in all, each with a personality all her own!

Individual Pkg.

Size: 8½" x 11" x 2¼"

Beauty Puffs

The Beauty Puffs—Lacey, Dreamy, Angel, Rosey, Lovely and Powder—are soft and pretty as a field of spring flowers. They love to have their hair brushed, to talk on the phone, and to nibble on sweets. Each has a glamorous perfume scent, her own pastel color, and comes with a special beauty accessory all her own.

Party Puffs

Sweetie, Sunny, Bubbles, Lucky, Happy and Candy... each Party Puff comes with her own special party accessory to make every Puff party a hit! Each brightly colored Party Puff has a sweet, festive scent that helps to make every day in Puffville special!

Beauty Puffs

Music Puffs

Party Puffs

Music Puffs

Who are those enchanting creatures sprinkled with stardust? Harmony, Solo, Moody Blue, D.J., Funky and Cool. They're Music Puffs—wildly colored and always ready to play! Each exotically scented Music Puff comes with her own special accessory, perfect for rocking the valley or singing a sweet ballad.

New!

My Precious Puffs™ Play Park

3360

Pink garden paths lead to the musical carousel in the center of the Puffs' Play Park. Turn the heart atop the carousel and watch the ponies turn as the music plays.

The Play Park is made of soft, velcro-sensitive fabric so the Puffs and the Village Shops can be attached anywhere. The large 24" square play mat also features a slide, teeter-totter, swing, and a special hide-away pouch that's perfect for naps, games, or holding accessories.

The Play Park folds up to become a convenient carry bag for your Puffs.

Rubik's Magic™
Puzzle "Link The
Rings"™
8308

Once again, you are in the presence of a genius. Rubik's Magic "Link The Rings" Puzzle is eight plastic panels with three colorful rings printed on them. The sections are cleverly hinged so they'll flip, flop and flap in all different directions.

The puzzle can be reconfigured into hundreds of different two and three dimensional shapes, but only one solution—the linked rings.

Actually, it's pretty simple—if you're Erno Rubik.

Individual Pkg. Size:
6 7/8" x 1 25/32" x 7 11/16"

Master Carton Size:
23 1/4" x 8 1/4" x 14 3/8"

New!

**Rubik's Magic™
Puzzle Master
Edition "Unlink The
Rings"™**

8312

For those who thought that "Link The Rings" didn't offer a great enough challenge, Mr. Rubik has created a Master Edition puzzle. "Unlink The Rings" is a 12-panel version that introduces an even richer variety of possible two and three dimensional configurations but again only one solution.

The 5 colorful rings are printed on a shiny metallic background. Even if you can't unlink the rings, it's an attractive piece of art.
