Sun Star MODEL CATALOGUE 2007

After just a few years in the market, the Sun Star range now stands out as one of the most exciting lines of scaled die-cast model replicas.

Distributed world wide, the Sun Star range is getting richer in the new millennium, offering a series of new models capable of satisfying the tastes of our customers: 1/18th contemporary to classic, road to racing, commercial to military vehicles.

Not only do Sun Star models feature a wide spectrum of varieties, but also present an incomparable accuracy and quality which, is achieved by a hard working team of automobile experts and tooling engineers.

Sophisticated tools produce the casting and injection of all the metal and plastic parts, which then are hand decorated and assembled, assuring Sun Star models an unquestionable collectible value.

Welcome to our 2005 range, and thank you in advance for becoming a Sun Star models collector! Sun Star models are amongst the most accurate and detailed 1/18th die-cast models that you can choose to collect.

Most of our models featuring:

- opening doors and highly detailed interior
- opening bonnet and engine reproduction
- steering function
- vacuum chrome plated parts
- rubber-type PVC tyres
- clear plastic headlights and tail lights
- accurate badging and decoration
- full colour customised packaging

Sun Star models are in compliance with all the existing safety regulations on toys.

The majority of models photographed in this catalogue are hand-finished prototypes and due to printing process limitations colours may vary. Final factory finished models will be superior.

The right is reserved to improve and amend specifications in colours and materials, and to change or withdraw items in this collection without notice.

1956 MORRIS MINOR

The Morris Minor made its debut at the first post-war Motor Show at Earls Court, London in 1948. Designed by Alec Issigonis, who later designed the original Mini, the 1948 Morris Minor had a split windscreen, low level headlights, and a "new" monocoque construction. 176,002 units were manufactured until it was replaced in 1953 by the Series II which went on to sell 269,838 units before the introduction in 1956 of Morris Minor 1000. Available in Saloon, Tourer (convertible) and Traveller (estate) versions, the Morris Minor became the first British car to sell a million units in 1961 when a Limited Edition model was launched to mark the event. In total, over 1.6 million units were made before its demise in 1971.

Sun Star has elected to model in super-detailed 1:12 scale the Morris Minor 1000 saloon which was launched at the London Motor Show in 1956, and which featured a single-pane windscreen, a larger "wrap-around" rear window and a new 948cc engine which gave a top speed of 73.2mph/117km/h. Future models will include the 1956 Tourer and Traveller, and later versions of this iconic British vehicle.
