new additions

p 14-26
archives

At TWH Collectibles, we are looking forward to 2011. We are excited about new products such as the 1:50 Manitowoc 31000, the largest crane model in Manitowoc's line, and the 1:50 P&H XPC, our first shovel with LED lighting. There is also the line of Kenworth prime movers and Drake Trailers which continues to gain global attention as one of TWH's most successful models.

This catalog will introduce you to these models and other additions, such as new liveries of the Grove GMK4100L, GMK5095 and the RT540E. TWH's fire and rescue line features the new Pierce Velocity chassis as well as new departments from Frisco, Dallas/Fort Worth and Miami-Dade. In addition, the Seagrave line continues to expand with new TDA's in department and stock unit variations.

Many of the TWH models in the archive section are running low in stock, so consider reviewing the catalog for opportunities to fill gaps in your collection.

We are grateful for another successful year which has closed out with some award-winning announcements. The Drake Trailers model was tied as the 2010 Best Overall Replica in Toy Trucker & Contractor. Also, the Seagrave Tractor-Drawn Aerial for Leesburg was voted as FireEngines.net 2010 Fire Apparatus of the Year.

Many thanks to all those who support the work of replicating machines with excellence as we continue to develop **Museum Class Models for World Class Collectors**.
