1-75 RANGE

1-75 RANGE

There's always something new and exciting to look forward to when you're a 'MATCHBOX' collector. There are 75 models in the range but that range keeps changing from year to year. Sometimes, we change the colour scheme of a particular model. At other times, we'll phase out models and bring in new ones

in their place. So check the range and see what's new. And look for other new models to be released during 1984!

You can keep this catalogue as a record of your collection. Just tick the boxes as you collect each model in the range.

The ripcord gyro motor gives them stunning speed. And they come with action rider figures that you can put into stunt poses! High speed fairings and exciting team colour schemes and decals as well. Join the Turbo Team! It's excitement in the fast lane!
